Subject: Microsoft Settlement

To whom it may concern ,

Please do not accept the proposed settlement in the Microsoft case brought by the Dept of Justice.

This is less than a slap on the hand . In fact I believe that this will increase the marlet share of MS over time.

Another penalty could be implemented . Such as take the proposed amount of monies and support implementation of another system . For example give the schools Macs and support for these systems from the funds suggested by the settlement.

Please rethink this settlement so that a more fair penalty is imposed .

thanks you
